## Academic Projects

### Website for Elderly People

This is the two months internship project. This website is a social networking platform, where elderly people can connect with their loved ones by sending friend request, can send messages and can share videos and images with their friends and relatives

Github : [https://github.com/atishkunalinfotech/elderly\\_for\\_website](https://github.com/atishkunalinfotech/elderly_for_website)

### Internship Management Information System

The purpose of the project is to design and develop an Internship Management Information System (iMIS) that will keep track of the Masters of Applied computing students internship progress: from application to internship completion.

## Professional Projects

### ZP Chandrapur Website

It is a e-governance content management system, Grievance management system and file tracking system website for Chandrapur district in maharashtra

link : <https://zpchandrapur.maharashtra.gov.in/mr>

### Xemaxema

Xemaxema.com is an public website for collecting customer feedback in Kenya. I have the responsibility to create new functionalities, database design, reports generation and integration.

Link : <https://www.xemaxema.com/>

### Meter Reading

The Utility Meter Reader is the first step to creating faster and more accurate meter readings for any utility company.

### Online Feedback System

It is online feedback system for employees; feedback can be ratings or tips (comments). Tips will be checked for quality, using innovative checking method. We can view our Reputation Report and Score for free. User is totally hidden to others, who provided the tips and ratings.
